

THE NEW dreamoc™ HD3.2

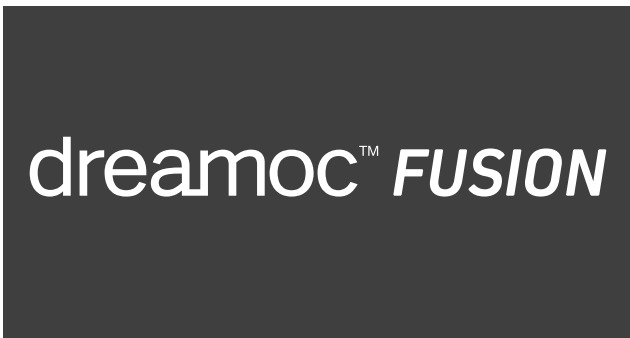

New HD3.2

New updated design with uniform straight sides to match the stand.

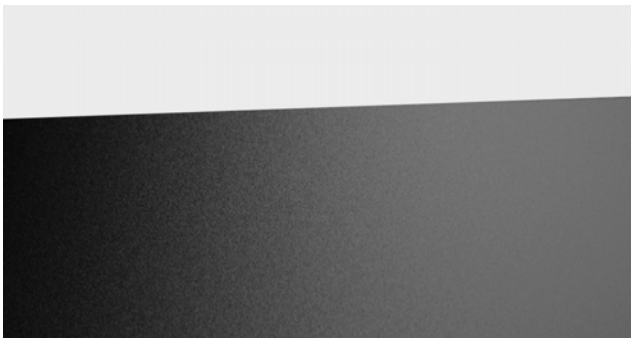

Old HD3

Dreamoc Fusion is now already pre-installed in the firmware, meaning you can sync multiple displays to let your content seamlessly flow across all our displays.

New fine-structured powder coating for extra durability, similar to the coating found on the Dreamoc Diamond. Reduces stains and fingerprints

Updated key and new hinge system for the backdoor. Your old HD3 keys **cannot** be used for the new HD3.2 .

A display stand with matching new powder coating is now available for purchase.

Existing flight case and display stand are **still** compatible with the new HD3.2 model.
